## Topic

Following on from listening to our Supertato story, we would love it if you could have a go at making your own super vegetable! You could try to recreate the same Supertato from the story, make your own version of Supertato, or choose another vegetable and bring them to life! We have some examples on the website that other children have made in the past if you're stuck for ideas. You could even make a home for your super vegetable too! If you don't have any vegetables to hand you could draw your super vegetable, then make it at a later date when you are able to get some.
